Theoretical background of professional behavior

Saw	Didn't	Stimulation of own initiative
	see	
		Inspires and stimulates the client to take his/her own
		part in the process.

First year

- get to know, become aware and expand view
- A few examples to develop your professional behaviour
 - Practical tests, performance assesment, role-playing in classes
 - Orientation internship
 - Extracurricular activities
 - **Elective courses**

How did we develop our professional behaviour?

- ► Elective course: swimming with autistic children
- Experiences

Second year

- Preparing for an internship
- A few examples to develop your professional behaviour
 - First and second semester: real patient
 - Third semester: primary school
 - Fourth semester: volunteering
 - Classes in a rehabilitation centre, nursing home or hospital
 - Guest speakers

How did I develop my professional behaviour?

- Volunteering in a thrift shop
- Working together with people with a mental disorder
- Linked with my internship

In conclusion

1st and 2nd year: orientation, collecting experience and building confidence in your OT skills.

3rd year: putting everything into practice.

Thank you all for your time and attention

Any questions?
